RE: Employment Verification
Beneficiary: Mustafa Ali Ghazi, PhD

Dear Sir or Madam:

This letter will document that Dr. Mustafa Ghazi is a current employee at the University of Oklahoma Health Science Center in the position of Postdoctoral Research Fellow in our Department of Rehabilitation Sciences. He has been employed with our University since June 25, 2018.

Dr. Ghazi develops robots for research in the healthcare industry by designing and fabricating mechanical parts for research and robotic devices. His work supports human clinical trials and training for scientists, therapist, and patients in device operation. He receives compensation in the sum of no less than \$50,000.00 in annualized salary.

The USCIS California Service Center has granted Dr. Mustafa Ghazi employment authorization with our institute in a valid H-1B status beginning 01/20/2020 to 12/31/2021. He is scheduled to depart the U.S. and is expected to return within a reasonable period to continue his job duties.

The University is known as the premier place in the central United States to undergo medical education and training. Hundreds of research projects are underway on campus at any given time. Faculty and students within each college are active in projects that have both scientific and clinical applications. In addition, the University is renowned for the life sciences research performed at our institution. Our distinguished sections include the Colleges of Medicine, Dentistry, Allied Health, Public Health, Nursing, Pharmacy, the Graduate College, Harold Hamm Diabetes Center, and the Stephenson Cancer Center. The University of Oklahoma - Tulsa is a nationally recognized center for higher education excellence with more than 30 graduate and selected undergraduate programs in the colleges of Allied Health, Architecture, Arts and Sciences, Education, Engineering, Fine Arts, Liberal Studies, Medicine, Nursing, Pharmacy and Public Health.

If you require additional information, please feel free to contact me.

Respectfully,
