NONI ROBOT CHEAT SHEET (SIMPLE)

Starting

```
selectMap("map#");
robotStartPosition(x, y,  angle);
robotConnect();
```

Action

```
forward();
backward();
right();
left();
paint();
blink();
```

Ending
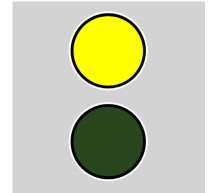

```
robotDisconnect();
```

Tips

Don't forget the ";"
Don't change the capitalization
Always do starting, then actions, then ending
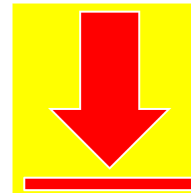

forward();

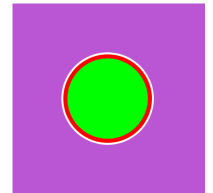

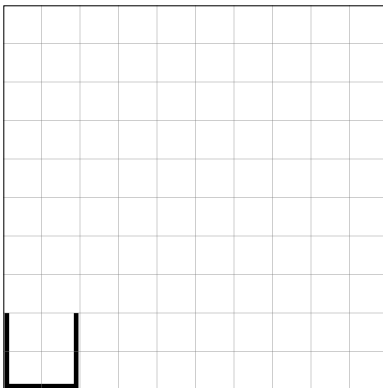

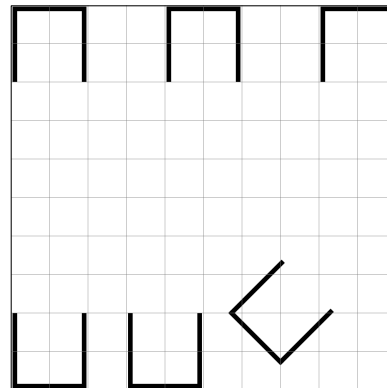

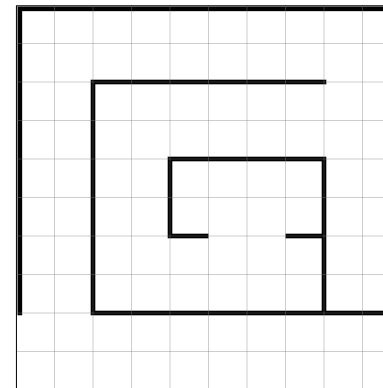

blink();

left();

right();

backward();

paint();
